

Location Profile

Krems. Danube Harbour

krems

Consisting of a very large area available for flexible leasing, the Danube Harbour Krems offers companies in industry, heavy goods and commerce, space to expand. A part of the Danube Harbour, there is direct access to the harbour basins, railway sidings, a container terminal and to first-class road and railway networks.

A site with plus points:

- a successful location for business and work
- tri-modal transfer point (road, rail, ship)
- a wide range of harbour facilities
- long-term rentals
- individual development potential
- flood protection
- multifunctional storage equipment
